Web Applications

The entire development is under ColdFusion MX

- **multiplatform hosting environment**
- **open data base connectivity**
- **secure application**
- **dynamic content management**
- **unlimited web pages support**
- **easy to use and maintain**
- **fastest web application in the market**

See for yourself why more than 300,000 developers at over 10,000 companies worldwide rely on ColdFusion MX to build and deploy powerful web applications faster than any other technology available on the market today.

ColdFusion is consistently proven to be effective, efficient, and ahead of the competition by its customers and the facts.

In use at **75 of the Fortune 100 companies** and at more than 10,000 other companies worldwide, ColdFusion MX is one of the most widely adopted web technologies in the industry. Here's a partial list of customers (with links to case studies) who rely on ColdFusion for its signature server-scripting environment.
